

## MOJ KREATIVAN ZADATAK 😊

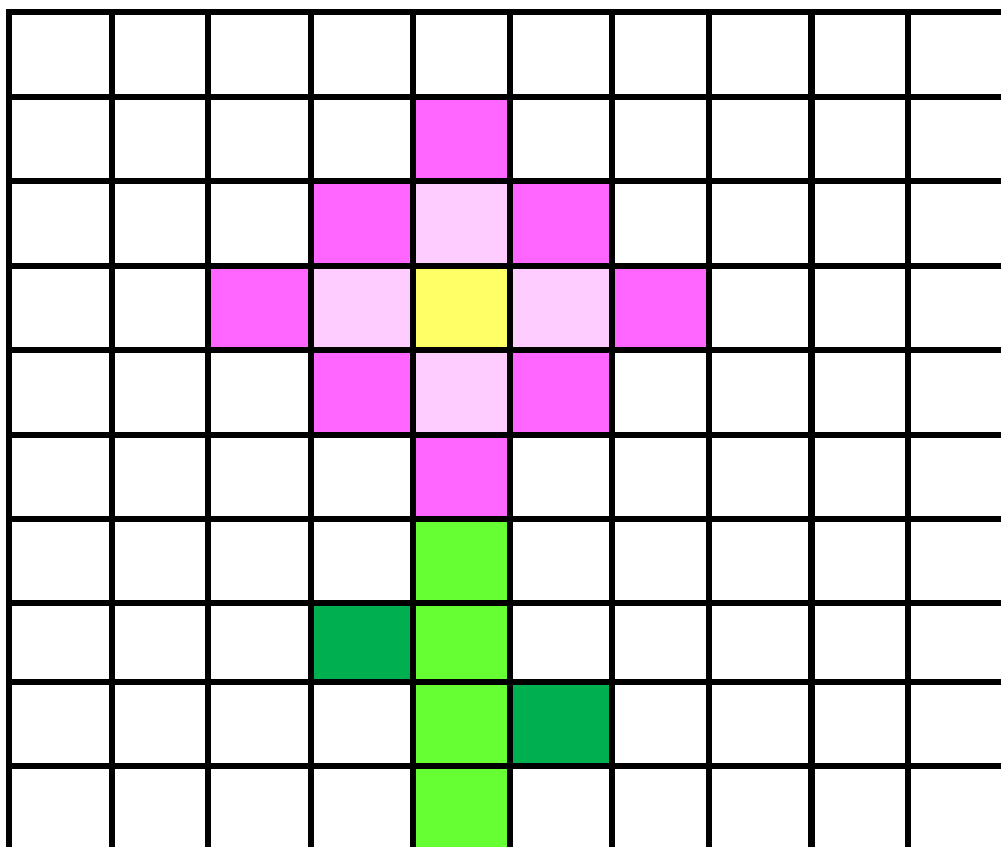

U kvadratnoj mreži 10 x 10 u najmanje 5 različitih boja oboji sva polja tako da dobiješ neki lik. Ako želiš, rad možeš nacrtati u programu za rad s tekstualnim dokumentima (Word).

Zatim nacrtaj sljedeću tablicu:

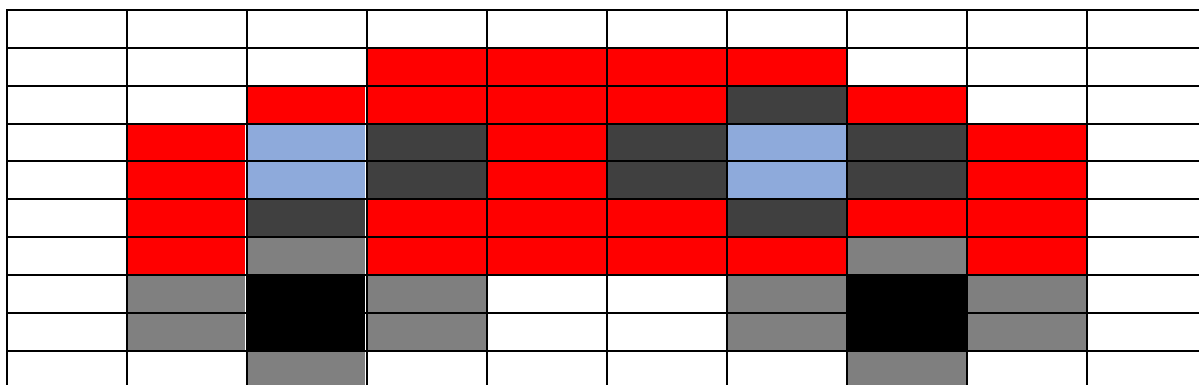

boja	razlomak	postotak	decimalan broj

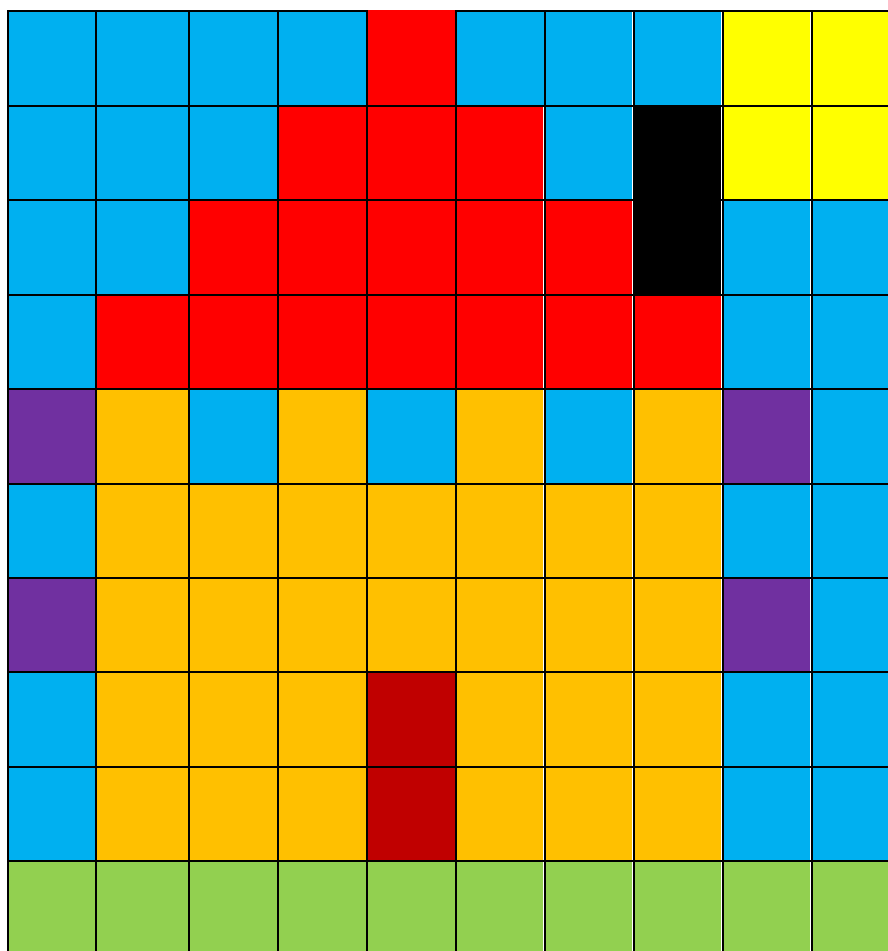

Upiši podatke za boju kojom si obojio/la najmanje, a zatim za onu kojom si obojio/la najviše dijelova.
